

## Hydraulic Equipment

COMPLETE HYDRAULIC SOLUTION

# Electric Hydraulic Pumps Cylinders

### → MP Series

### Features + Benefits

- 1 Highly efficient compact dual stage pump which provides fast efficient and controlled operation.
- 2 Large range of tank sizes available from 4-56L
- 3 Choice of valve assemblies suitable for single and double acting cylinders with optional manual valve and solenoid control options.
- 4 Fitted with pressure control valve and pressure gauge to allow precise tool control.
- 5 Corrosion resistant Aluminium tank and frame for use in harsh environments.
- 6 See MP Series selection chart for information on configuration options.

A compact lightweight design the MP Series range of electric hydraulic pumps is quiet, versatile, safe and efficient; suitable for a wide range of hydraulic cylinder applications. Utilising a modular approach with a wide range of tank sizes and valve configurations, the MP Series range can be customised to a wide variety of different tasks; including lifting, pulling, pressing and bending. Both manual and solenoid valve options are available. Designed with a highly efficient electric pump system, the MP Series range is suitable for extended periods of use. Fitted with your choice of valve assembly, the MP Series provide accurate control of pressure from 0-700 Bar; delivering precise operational control of the cylinder system. A full range of tank sizes is available from 4-56L to suit the largest multiple cylinder systems.
