COMPLETE HYDRAULIC SOLUTION

Hydraulic Hand Pump High Pressure 2800 Bar

→ 28P Series

Features + Benefits

- 1 Corrosion resistant Aluminium alloy for long life.
- 2 Lightweight design and manufacture for safe easy use.
- 3 High impact body for durability.
- 4 Built in low pressure valve for use at low pressure with high flow output.
- 5 Precision pressure regulator valve for accurate control of out put pressure.
- 6 Available in 2800 Bar super high pressure models.
- 7 Choice of oil reservoir sizes 2.26l and 3.58l.

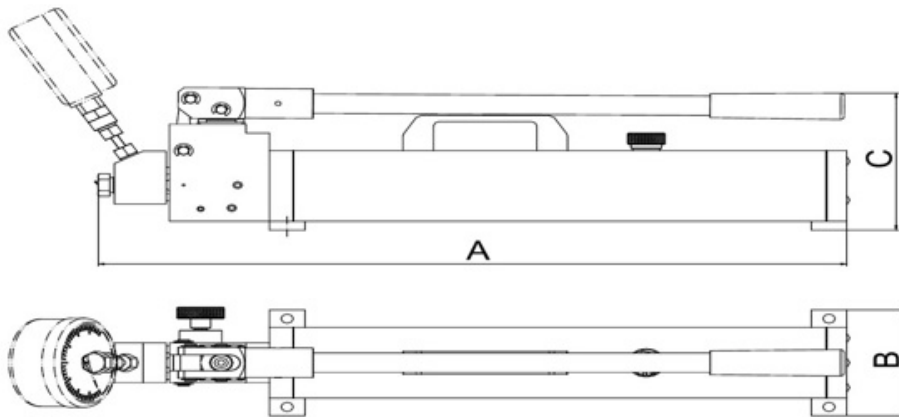

Precision engineered and manufactured from the latest Aluminium Titanium alloy for maximum strength and durability, the 28P series hand pumps are designed for specialist applications needing super high, up to 2800 bar, pressure applications. This lightweight pump comes in two pressure ranges and with three reservoir capacities providing a wide range of options.
