

LOAD SKATES

The Challenger Load Skates are manufactured of high quality material and are designed to move, position or install a wide range of loads such as heavy equipment, machinery or bridge structures.

This Challenger product represents the best value for money in both the Australian and New Zealand market and is backed by a 2 year warranty.

Available capacities vary from 5 to 75 tonne per 4 units.

All Challenger products proudly support cancer charities in Australia & New Zealand.

FEATURES

- Designed to facilitate the moving, positioning or installation of a wide range of loads.
- Manufactured of high quality steel for a durable product finish.
- Optional turntable and positioning handle available for all models.
- Collapsible positioning handle for easy storage.
- High visibility colours for safety purposes.
- Overall better design and improved finish to prolong product longevity.
- For every model sold, a donation will be made to the McGrath Foundation in Australia and the Child Cancer Foundation in New Zealand.
