

# PACIFIC Chain Blocks

New  
Unique  
Product Range

With its small and compact design, the new Pacific Chain Block boasts a list of exciting new features making it one of the safest and most cost effective chain blocks on the Australian market.

## FEATURES

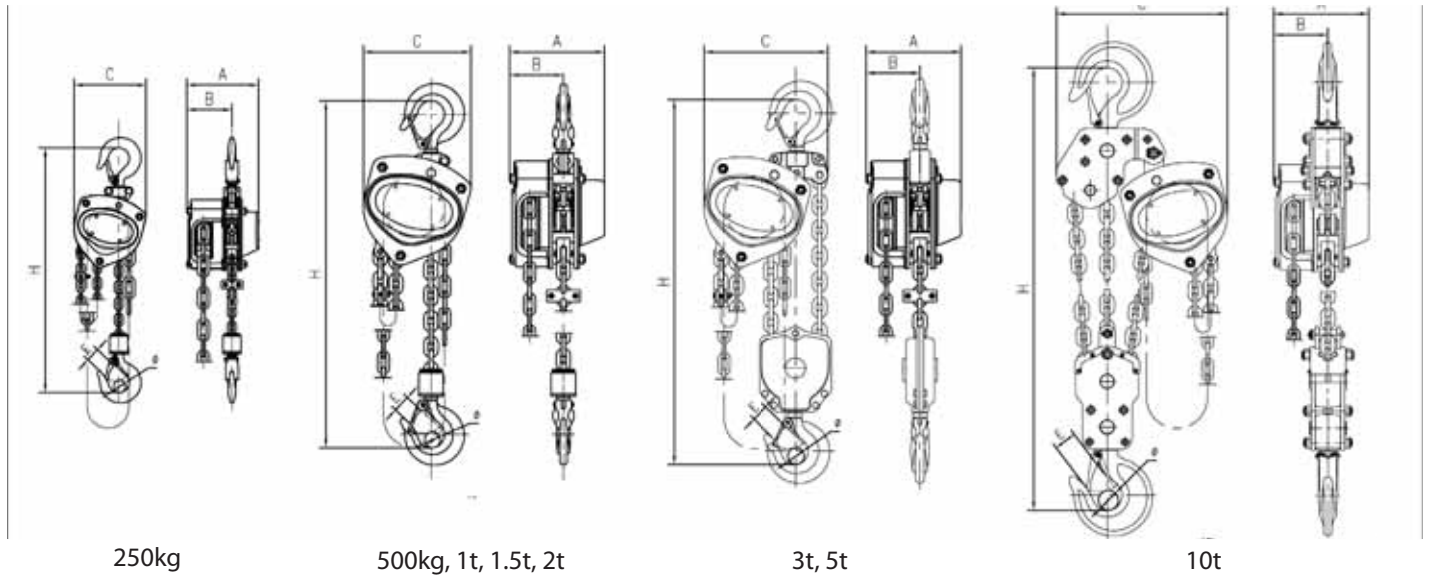

- Brand new small and compact design
- 25% less effort required to lift load
- New high strength end stop with secondary end anchor for increased safety
- New "T" type hooks for improved load holding integrity (except 250kg)
- New gear system design for reduced effort when lifting loads
- New hand wheel designed to eliminate hand chain slippage and pocket wear
- New needle bearings and side plate bearings for smoother operation
- New brake lockout bearing for security of braking mechanism
- Key internal components are CNC machined before being heat treated and toughened
- Fitted with high quality European zinc plated Grade 80 load chain
- No aluminium content ensures suitability for mining applications
- Overall better design and improved finish to prolong life expectancy

Better Quality  
Easier to Use  
Improved Safety  
Lower Cost
