

## LIFTKET B13

LIFTKET electric chain hoists are characterized above all by their high level of safety. The chain hoist features first class material and technologies, ensuring excellent quality.

The B13 offers high lifting capacities ranging from 4t to 12.5t. Designed in single or double fall ensuring an economically big lifting speed and avoids intensive chain wear and chain diversion points.

## Features:

- A single point suspension is possible because the center of gravity is always underneath the suspension point
- Good for big lifting heights and mobile use at construction sites
- Extremely low and easy maintenance design
- Available with suspension eye, hook suspension or electric trolley
- Made in Germany

The information shown is to be used as a guide only. Specifications are subject to change without notice. All materials handling or lifting jobs should be assessed individually. Pacific Hoists products are NOT to be used for lifting or lowering persons.
